

The ID Chocolate Coin Imprinter

- * THE LATEST ID CHOCOLATE COIN IMPRINTER, the SA1400 which produces up to 1400 coins per hour is semi-automatic and has a 6 digit counter and an adjustable dwell for superior imprinting.
- * Imprint CHOCOLATE COINS in any quantity with the ID CHOCOLATE COIN IMPRINTER. The imprinter stamps 1½ inch coins (both sides simultaneously).
- * The ID CHOCOLATE COIN IMPRINTER works on a pneumatic principal and requires an air compressor (not included) and a standard 110 volt electrical outlet. We will be happy to provide specifications and recommendations on request.
- * Custom coin imprinting dies are available from Bauer Engraving Company in Rancho Cordova, California with a 2 to 4 day turnaround for \$45.00 per side. A wide variety of standard dies are also available at greatly reduced prices.
